## alphabet donation Activity Participation Policy

### ◆ Alphabet donation ◆

① I agree that the items (alphabets, signatures, and messages) that I have donated in sympathy with the philosophy of the Alphabet donation activity will be transferred to NFT Bankers (NFT creation and exhibition organization) for social contribution and charitable donation activities such as SDGs, and will be converted to NFT.

② We acknowledge that the proceeds from the sale of products converted to NFT and sold in the marketplace will be used to contribute to the achievement of the Sustainable Development Goals (SDGs) adopted by the United Nations in September 2015.

③ The Alphabet donation activity is an activity that contributes to the promotion of the Sustainable Development Goals (SDGs) with all proceeds from the sale of NFTs produced from the signatures received (100% of the profit from the initial sale of the produced NFTs and royalties from secondary distribution) paid to NFT Bankers.

④ We also hope to use the funds to support new social and charitable projects that emerge from Alphabet donation activities in the future.

⑤ We will not use the materials you provide for any purpose other than Alphabet donation activities.

Please understand that this information is related to personal information, copyrights, etc., and we appreciate your understanding before responding.
